LEADERSHIP/ EXTRACURRIULAR

- Finalist in PSGiTech Hackfest (Coimbatore)
- Led a team during college Hackathon to build a website within a challenging 24-hour timeframe, showcasing exceptional teamwork and problem-solving abilities.
- Demonstrated leadership by guiding the team through the Chatbot project using Botpress, showcasing both technical expertise and management skills.

PROFILE

Motivated final year undergraduate with hands-on frontend development experience from an internship. Proficient in C, Java, Data structures and web development. Eager to apply my skills and continue learning in a challenging internship role. Known for my strong work ethic and collaborative mindset, I am committed to contributing effectively to innovative projects while gaining valuable industry experience.

WORK EXPERIENCE

Frontend Developer Intern

Galaxi Engineering Technology Services   Sept 2023 – Nov 2023

- Designed and implemented a client portal for seamless invoice and quotation generation, enhancing operational efficiency.
- Expanded the client portal by integrating purchase order and payment status features.
- Implemented an automated invoice generation system within the client portal, enabling seamless creation and saving of invoices to a default folder with specific version names upon client login and data entry.

PROJECTS

Currency Convertor | Java
- Developed a Java program capable of converting currency between different forms.

Exploria | Reactjs
- Led the design and development of Exploria, a comprehensive travel booking website offering users the ability to look over the hotels available for booking and the discounts available on them.

Portfolio| HTML , CSS
- Developed a personal portfolio.

News Website using News API | HTML , CSS
- Created a news website from scratch, integrating the News API to provide users with real-time news updates.
- Designed the website layout and functionality to deliver a user-friendly news browsing experience.

Amazon Clone | HTML , CSS
- Created an amazon clone.
