PROFILE

Enthusiastic final-year undergraduate with practical experience in frontend development gained through an internship. Skilled in C, Java, Data Structures and Web Development. Excited to leverage my expertise and continue growing in a dynamic internship environment.

EDUCATION

KL University

Bachelor of Technology in Computer Science, CGPA: 9.5

Vijayawada , Andhra Pradesh

Sept 2021 – May 2025

Sri Chaitanya

PCM , Percentage: 97

Vijayawada, Andhra Pradesh

Apr 2019 – May 2021

EXPERIENCE

Frontend Developer Intern

Jun 2023 – Nov 2023

Galaxi Engineering Technology Services

- Enhanced client portal functionality, resulting in an increase in efficiency for invoice and quotation generation.
- Implemented purchase order and payment status tracking features, facilitating better client engagement and improving transparency.
- Developed an automated invoice generation system, optimizing the process and reducing manual effort
- Streamlined client data entry procedures, enabling seamless invoice creation and providing version control capabilities.
- Leveraged technologies including HTML, CSS, JavaScript, and APIs to accomplish project objectives.
- Cooperated with team members to integrate new features and ensure seamless user experience.

SKILLS

Languages: Java, C

Frontend: ReactJS, HTML, CSS, Javascript

Database: SQL, MongoDB

Backend: Nodejs

Data Structures

PowerBI

Soft Skills: Teamwork, Communication, Self-motivation, Public speaking, Presentation skills, Analytical skills

PROJECTS

FoodieU | *Reactjs, MongoDB, Nodejs, Express*

- Spearheaded the creation of FoodieU, a dynamic food delivery website.
- Designed an intuitive and user-friendly interface, simplifying restaurant browsing and order placement.
- Utilized ReactJS to optimize website performance, achieving a notable reduction in page load times and enhancing the overall user experience.
- Conducted thorough testing and optimization, achieving a bug-free experience.

Jobio Connect | *Java, JSP, SQL, PowerBI*

- Designed and developed an intuitive interface for Jobio Connect.
- Utilized JSP, SQL, PowerBI to deliver real-time updates.
- Enhanced user experience through responsive design, leading to a decrease in bounce rate.
- Utilized Power BI's advanced visualization capabilities to create reports that highlight key recession indicators and trends.

LICENCES AND CERTIFICATIONS

- Red Hat Enterprise Application Developer EX-183
- AWS Cloud Practitioner CLF-C02
